

## Datasheet

# Carrot CML box

- CNC billet aluminium housing
- Quality waterproof switches
- 8 different mappings
- Variable launch control

The Carrot CML box is an expansion module for a Carrot Engine Control Unit. The module is expanding the functions of the ECU with the possibility of 8 different mappings and variable launch control in 10 increments. The housing is manufactured from CNC billet aluminium and quality waterproof switches. The CML box needs to be connected to the ECU CAN-bus, and is carried out with an input and output connector.

### Technical Specifications

CNC billet aluminium housing
1x 4 pin female binder connector
1x 4 pin male binder connector
Size: 84mm x 44mm x 27mm (LxWxH)
Power supply voltage: 10 to 16V
Mounting: 2x M4 bolts

### 4 pin Binder connector (CAN-bus)

1	Red	12V supply CAN
2	Black	Ground CAN
3	White	CAN High
4	Green	CAN Low
